

Second Grade High Frequency Word List

Second Nine Weeks

The Second grade word lists were developed using the Fry Words List. Students should know the words from the previous grade levels as well as the ones from second grade.

Tips for Teaching High-Frequency Words:

1. Introduce new words in isolation (i.e., the word by itself), but immediately follow this with repeated exposures to the same sight words in books and other reading materials. Students need to see the word used in context.
2. Provide brief but frequent sight word instruction. Each week introduce 5-7 words to your student. Making flashcards can be helpful.
3. Offer your student numerous opportunities to practice and receive immediate, specific feedback.

Each 9 weeks the students will be evaluated on their knowledge of these words.

ask	number	often	afraid
always	another	great	says
stay	try	which	feel
leave	please	need	seen
tree	below	both	follow
most	move	almost	become
begin	might	began	ready
thought	whole	didn't	were
anything	children	gone	notice
good	page	hard	start
